MENTORING & COACHING WORKSHOP

We are conducting a one-day workshop that will empower you, equip you and encourage you with a unique blend of Mentoring & Coaching that facilitates an environment of growth for people so they can live with a greater impact across all the key aspects of life.

We will explore principles around Mentoring/Coaching, frameworks that can be placed around Mentoring/Coaching sessions, and specific tools that you can use within these intentional growth relationships.

OUR HOPE

Our hope is that you will leave this day with enough confidence, frameworks and tools you feel that with God you can be a Mentor/Coach for someone.

Mentoring/Coaching is an expression of the verse:

"A person standing alone can be attacked and defeated, but two can stand back-to-back and conquer. Three are even better, for a triple-braided cord is not easily broken." ECC 4:12 NLT
